

COMPANY OVERVIEW

Katonium Concepts Limited is an Abuja-based electronic security, ICT and building services contractor. We design, supply, install, commission and maintain integrated CCTV, access control, perimeter and fire systems, together with the structured cabling, network, solar and electrical infrastructure that supports them, and supply IT hardware to federal institutions and businesses. Registered and trading continuously since 2020; incorporated as a private limited company in 2025. Abuja-based with nationwide deployment capability.
